PROFESSIONAL SUMMARY

Full Stack Developer with hands-on, production experience across Java, Spring Boot, ReactJS, React Native, and Node.js. Skilled in designing and building scalable web and mobile applications, RESTful APIs, and secure authentication systems, and in deploying production-ready solutions on Microsoft Azure, AWS, Vercel, and Render. Strong problem-solver focused on writing clean, maintainable code and delivering reliable software end to end.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript
Frontend: HTML, CSS, ReactJS, React Native, Tailwind CSS
Backend: Spring Boot, Node.js, REST APIs, Spring Security, WebSocket
ORM & Persistence: JDBC, Hibernate
Databases: SQL, MySQL, MongoDB, PostgreSQL
Cloud & Deployment: Microsoft Azure, AWS, Vercel, Render
Tools & Platforms: Git, GitHub, Postman, Razorpay, Clouinary

PROFESSIONAL EXPERIENCE

Software Developer — Revappayya IT Services Pvt. Ltd., Bengaluru **Oct 2024 – Mar 2026**

- Developed and maintained scalable full-stack web applications using ReactJS, Node.js, and Spring Boot.
- Designed and built RESTful APIs and integrated frontend applications with backend services.
- Developed mobile application features using React Native for cross-platform delivery.
- Implemented authentication, role-based access control, and secure payment integrations.
- Deployed and maintained applications across Microsoft Azure, AWS, Vercel, and Render.
- Collaborated with cross-functional teams (design, QA, backend) to ship production-ready releases.
- Optimized application performance and responsiveness across web and mobile platforms.

PROJECTS

RITS Billing Suite — Web & Mobile Application | ReactJS, Tailwind CSS, Node.js, REST APIs, Microsoft Azure

- Built a scalable billing and invoicing platform end to end using ReactJS and Tailwind CSS on the frontend.
- Implemented the complete frontend architecture and integrated it with a Node.js REST API backend.
- Built a secure authentication and role-based access control system.
- Designed and developed core modules: Dashboard, Quick Invoice, Create Invoice, Quotation, Product, Customer, Settings, and Profile.
- Implemented Invoice History and Quotation History with search and filtering functionality.
- Ensured a fully responsive UI across desktop and mobile devices.
- Deployed both frontend and backend applications on Microsoft Azure.

SwapTicket — Railway Ticket Resale Platform | Spring Boot, Thymeleaf, MySQL, ReactJS, Spring Security, Razorpay, WebSocket, REST API

- Developed a role-based railway ticket resale platform using Spring Boot, Thymeleaf, MySQL, and Spring Security, with secure authentication and authorization for Admin, Seller, and Buyer roles.
- Built the end-to-end ticket marketplace workflow, enabling sellers to list tickets and buyers to purchase through Razorpay, with tracking for sold tickets, purchased tickets, and transaction history.
- Integrated third-party APIs for real-time train tracking and live train status within the application.
- Built a real-time customer support system using WebSocket for instant communication between users and support representatives.
- Designed an Admin Dashboard to monitor users, manage ticket listings, track transactions and platform fees, and resolve support requests.

EDUCATION

Oct 2020 – May 2024	Bangalore Institute of Technology, Bengaluru <i>Bachelor of Engineering (VTU)</i>
Jun 2018 – May 2020	Dr. Channabasaveshwara Gurukul, Kardyal, Bidar <i>Pre-University Course</i>
Jun 2017 – May 2018	Sri. Channabasaveshwara Gurukula High School, Kardyal, Bidar <i>Secondary School Examination</i>

CERTIFICATIONS

- Software Development Course — JSpiders, Rajajinagar, Bengaluru
- Certificate of Competitive Programming and Cognitive Skills — Quant Master Tech Pvt. Ltd.
